Our Service

Service Level Agreement (SLA)

Our relationship with clients is based upon mutual trust, respect and commitment. Before we enter into a recruitment partnership with you, we will agree a mutually acceptable Service Level Agreement, (SLA).

This will outline what both sides need to do to ensure that the relationship is a success, including recruitment timescales, provision of management information and schedules for performance review meetings.

Account Team

Having agreed the SLA we then assign an Account-Team. The team consists of a dedicated consultant supported by a back-up consultant and administrative staff. They are responsible for managing our business partnership on both an operational and a strategic level.

Management Information Systems

Our Corporate Accounts Team is able to deliver a number of reports and processes to help you manage your information and assist your business:
